

GREEN KLEAN® GONE

FAST AND EFFECTIVE ODOR ELIMINATOR

Green Klean® GONE is the fastest and most effective way to eliminate foul odors using a patented non-synthetic air deodorizing system that does not contain dangerous VOC's or phthalates. **No Ozone**

1 unit treats a 300 square foot area.
Each unit contains a 25 gram pouch,
activator sponge, a disposable clam
shell & full instructions.

GK-ORGONE = 12 units/case
GK-ORGONE-2P = 2 units/case

- GONE is simple to use. Saturate the sponge with water, open the pouch, and insert the white brick into slit in the sponge. Return to the clam shell and close the lid. Place the “Room Under Treatment” card on the door. The CLO2 vapor is released into the area attacking odors at their source.
- Follow instructions, included with each unit.
- Once a sealed area is treated, it can be reoccupied quickly by simply turning back on the air circulation system and / or allowing fresh air into the space.
- Odors are removed permanently with no annoying or harmful fragrance left behind.
- Safely used in enclosed areas, GONE leaves no harmful residues. www.gkvacbags.com/gone

Why GONE? Because after use, you'll say “The odors are GONE!”
